

Advanced Transportation Technology

- Ten ATTi Centers strategically located
 - Develop services & curricula
 - Offer technical assistance
 - Deliver services & training
 - Outreach to the State, public and private agencies
 - Results in outside investment in ATTi

Advanced Transportation Technology

- Access
 - Websites : ***www.attcolleges.org***
 - Brochures: *Innovation, Income and Opportunity*
 - Newsletters: **Getting It Done!**
 - Training on & off the campus
 - Personal Relationships:
 - *Alive and nurtured!*

Advanced Transportation Technology Partnerships

Public and Private: Land, Sea & Air

- Air Districts: South Coast Air Quality Management District
- Cities: City of Los Angeles
- Railroads: Heavy & Light
- Airlines
- OEM's: Heavy Equip, Auto, Motorcycle, Agriculture, Aviation & Marine
- National: DOT, DOE, Clean Cities
- Energy Providers: SoCalGas, Semptra & Edison
- College partnerships: 4yr, other CCC's, Public & Private
- Transit agencies: CC's & Transit agencies
 - Southern California Regional Transit Training Consortium

Advanced Transportation Technology

- Creation of investment: \$2.5 Million
 - Equipment, cash, services and facilities
 - Training Contracts
 - Endowments - Foundations and other Organizations
 - Federal Grants: National Science Foundation
 - Education and Research Tasking

Advanced Transportation Technology

- The Centers develop training for new and incumbent workers
 - Alternatives Fuel Technologies
 - Alternative-powered / Hybrid vehicles
 - Intelligent Transportation and Systems

Advanced Transportation Technology

- Alternatives Fuel Technologies
 - Compresses & Liquid Natural Natural Gas
 - Propane, Ethanol & Methanol
 - Biodiesel
 - Hydrogen

Advanced Transportation Technology

- Alternative-powered / Hybrid vehicles
 - **Electric**
 - Pure electric, Hybrid, Fuel Cell
 - **Gaseous** (Heavy/Medium/Light)
 - CNG, LNG, Propane, Hydrogen, Hythane
 - **Emission Reductions**
 - Integrated computer controls, Electronic sensors, Computer interfacing

Advanced Transportation Technology

- Intelligent Transportation and Systems
 - Traffic sensing systems
 - Vehicle detection systems
 - Geographic Information Systems (GIS)
 - Global Positioning Systems (GPS)
 - Safety, efficiency, reliability
 - Pavement management
 - Logistics

Advanced Transportation Technology

"These bold new materials make quite a splash! Clear and concise, these items present a sharp focus on the EWD program. I especially appreciate the newsletters, which rightly tout the successful partnerships and outcomes of each initiative.

These materials will be most beneficial when placed into the hands of my legislative colleagues. I encourage you to sustain a continuing effort to update the Legislature on the critical importance of your work.

Good luck."

Senator Jack Scott
